COMMENTS ON PROPOSED [REDACTED]

25X1

1. The substantive comments of this Office are contained in a memorandum of 8 September 1955, prepared by [REDACTED] 25X1 and commenting upon the Headquarters version of this Regulation.

2. Comparing the proposed Field Regulation with the earlier draft of the Headquarters Regulation, it is apparent that a number of changes have been made. These changes seem to be for the better. We concur in the Field Regulation but with the understanding that it represents the most recent draft of the pair of regulations and that in final form it will differ from the Headquarters Regulation only to the extent that may be required by security considerations or differences in function between Headquarters and Field.
